

# Agreed Principles of Land Access

## Introduction

These principles have been agreed between landholders and gas companies based on values of respect, integrity and trust.

They have been facilitated between representatives of agricultural landholders and gas companies.

## Application

The principles agreed in this document relate to coal seam gas projects in New South Wales and specifically cover access to private agricultural landholder's property (Landholders) for coal seam gas drilling operations for exploration and production purposes (Operations).

## Principles

All parties to this document have agreed the following principles:

1. Any Landholder must be allowed to freely express their views on the type of Operations that should or should not take place on their land without criticism, pressure, harassment or intimidation. A Landholder is at liberty to say "yes" or "no" to the conduct of Operations on their land;
2. Gas companies confirm that they will respect the Landholder's wishes and not enter onto a Landholder's property to conduct Operations where that Landholder has clearly expressed the view that Operations on their property would be unwelcome; and
3. The Parties will uphold the Landholder's decision to allow access for Operations and do not support attempts by third party groups to interfere with any agreed Operations. The Parties condemn bullying, harassment and intimidation by third party groups and individuals in relation to the agreed operations.

On this day, Friday the 28<sup>th</sup> of March 2014, we the undersigned parties hereby agree to abide by the principles in this document.
