Suggestions for future presentations to NGPCCC to be put to the September 2018 NGPCCC

These need to be had prior to the IPC date

GESERA Studies

Try to get GISERA to present to the NGPCCC on the two Reports whose links are below and in the Santos Monthly Update for September.

https://gisera.csiro.au/project/decommissioning-pathways-csg-projects/

https://gisera.csiro.au/wp-content/uploads/2018/06/Water-8-Final-Report.pdf

Also request that GISERA explain the complaints resolution process.

NSW Department of Industry, Land and Water.

Also try and get Department of Industry Land and Water to come and address NGPCCC on Plumb Road bore nest along with all Analysis of the ground and above coal seam, waters.

NSW Treasury

Ask to explain how and when Royalty payments are due on extracted gas.

This request is bought about by the interest generated by the prospect of having a Community Benefit Fund and a Landholders Benefit Fund for those hosting gas operations on their land.

Tax Lawyer or Taxation Department

To explain the Taxation requirements around payments received by Landholders and others from hosting or having Access Agreements, whether voluntary or otherwise, entered into with the Gas Company and/or the Gas Pipeline.

Also include any taxation obligations due to receiving monies from the Landholder Benefit Fund.

To Unknown Department handling CCC's

Request a presentation from the Department involved, on any proposed future format and structure that the CCC body known as the NGPCCC may take in the future.

Any changes to the existing NGPCCC should the Narrabri Gas Project be approved.

Mr A J Pickard
Delegate for People for the Plains and the wider community to the Narrabri Gas Project CCC
