Dear Ms Oliver,

RE: Rehabilitation Completion Criteria,
Dewhurst 22-31 and Dewhurst 13-18H extension Pilots

I refer to the document titled Rehabilitation Completion Criteria – Dewhurst 22-31 pilots and Dewhurst 13-18H extension. It is understood that this document has been provided to address development consent Condition 29 of the Dewhurst Gas Exploration Pilot Expansion (SSD-6038), dated 18 July 2014. This condition requires a Rehabilitation Management Plan to be prepared to the satisfaction of NSW Trade & Investment – Office of Coal Seam Gas (OCSG).

This document has been reviewed by officers from the OCSG and is accepted as adequate. However, please note that in situ abandonment of gathering lines (pipes) as described in Table 2 of the Rehabilitation Completion Criteria requires acceptance from the landowner, Forests NSW. Please also be aware that Condition 47 and 48 of PEL 238 requires rehabilitation to be carried out to the satisfaction of the Minister. The adequacy of rehabilitation will be determined by the OCSG in consultation with Forests NSW at a later date.

Should you wish to discuss any details of this letter, please contact me on 02 4222 8321.
Yours Sincerely,

A handwritten signature in blue ink, appearing to read 'Chris Rudens'.

Chris Rudens
Principal Operations Officer, Office of Coal Seam Gas.

Date: *16 October 2014.*
