Drilling of exploration core holes, workovers and decommissioning of wells:

- No activities planned for April.

Pilot wells:

- Bibblewindi East, Bibblewindi West, Dewhurst South and Tintfield pilot wells are on-line.

Leewood:

- The lucerne crop at Leewood is not currently being irrigated with produced water being stored in ponds.

Other work:

- Wilga Park Power Station annual maintenance shutdown has been safely completed and the facility is back on-line.
- Santos is assessing the feasibility of transporting more gas from the Bibblewindi East and Bibblewindi West pilot wells to the power station for electricity generation. If feasible this would reduce flaring.

Other:

- On 3 April, Santos announced it had received a non-binding, indicative proposal from Harbour Energy Ltd to acquire Santos. The Santos Board considers that, based on the indicative offer price of A\$6.50 per share, it is in the interests of shareholders to grant due diligence and engage further with Harbour on the proposal. There is no certainty at this time that the proposal will result in an offer for Santos that is capable of being considered by shareholders.
