Dear Mr Anderson

### **Wilga Park Power Station - Hazard Audit Report**

I refer to the independent Hazard Audit (HA) Report, dated 19 March 2019, prepared by Karin Nilsson of Planager Pty Ltd and submitted to the Department, as required by Condition 3.6(b) of the Major Project development approval MP07\_0023.

The Department has reviewed the HA and is satisfied that it addresses the requirements of Condition 3.6 of the consent and has been undertaken in accordance with the Department's *Hazardous Industry Planning Advisory Paper No. 5, 'Hazard Audit Guidelines'*.

The audit included a thorough review of the operations associated with the Santos Limited developments which form part of the Narrabri PEL 238 Project. It is noted that; an established Safety Management Plan is in place for the Narrabri Operations, changes are managed using stringent Management of Change protocols, Standard Operating Procedures are available and compliance requirements are well managed.

No actions or recommendations were identified during this Hazard Audit.

Following a review of the Hazard Audit, the Department approves the report in accordance with Condition 3.6 of the development consent MP07\_0023.

Should you have any queries or would like to discuss this matter further, please do not hesitate to contact me on [REDACTED]

Yours sincerely

15/4/19

Stephen O'Donoghue  
**A/Director**
