Dear [REDACTED]

Wilga Park Power Station Annual Emissions Testing Report 2019

Reference is made to the Annual Emissions Testing Report for the Wilga Park Power Station (WPPS), submitted by Santos Limited (Santos) to the Department of Planning and Environment (the Department) on 13 May 2019.

Schedule 2 condition 3.2 of MP 07_0023 (the approval) requires annual point source emissions sampling and analysis, within 90 days of the commencement of operation of the WPPS at a capacity of more than 12 megawatts. Santos advised the Department that WPPS commenced generating above 12 megawatts for the first time on 22 December 2018 and the first annual stack emissions testing was undertaken on 19 and 20 March 2019, which is within the 90 day period.

The Department has reviewed the above report and considers that it generally satisfies the conditions of the approval. Please note that acceptance of this report is not an endorsement of the compliance status of the project.

As required by Condition 5.4 of the approval, please make a copy of this report available on the WPPS website by **31 July 2019**, or as otherwise agreed with the Department.

The 2020 Annual Emissions Testing Report is due to be undertaken by 20 March 2020 and submitted to the Department (compliance@planning.nsw.gov.au) within two months of the testing date.

If you wish to discuss this further, please contact Heidi Watters, Senior Compliance Officer at the Department as per the details provided above.

Yours sincerely

25/06/19

Leah Cook

Team Leader - Compliance

As Nominee of the Secretary
