Dear Mr Anderson

**Wilga Park Power Station (PA 07_0023)
Annual Emissions Testing Report**

Reference is made to the Annual Emissions Testing Report (the Report) for the Wilga Park Power Station (WPPS), submitted by Santos NSW (Eastern) Pty Ltd (Santos) to the Department of Planning, Industry and Environment (the Department) on 20 March 2020.

Schedule 2 Condition 3.2 of MP 07_0023 (the Approval) requires annual point source emissions sampling and analysis following the commencement of operation of the WPPS at a capacity of more than 12 megawatts.

Santos advised the Department that WPPS commenced generating above 12 megawatts for the first time on 22 December 2018 and the first annual stack emissions testing was undertaken on 19 and 20 March 2019. The second annual emissions testing was undertaken on 29 and 30 January 2020.

The Department has reviewed the above report and considers that it generally satisfies the conditions of the approval. Please note that acceptance of this report is not an endorsement of the compliance status of the project.

As required by Condition 5.4 of the approval, please make a copy of this report available on the WPPS website by **15 April 2020**.

If you wish to discuss this further, please contact James Epstein on the details above or email to compliance@planning.nsw.gov.au

Yours sincerely,

HWatters 3/4/2020

Heidi Watters
