

# Seismic surveying map

# Santos

We have removed very small portions of the seismic lines to ensure that we do not conduct any surveying within Travelling Stock Routes or on Crown Land.

Santos is a global low-cost producer of oil and gas committed to ever-cleaner energy and fuels production with operations across Australia, Papua New Guinea, Timor-Leste and North America.

For more than 65 years, Santos has been working in partnership with local communities, providing local jobs and business opportunities, safely and sustainably developing its natural gas resources, and powering industries and households.
